PRODUCTS

Product	Grade / form	Packaging
Hydrofluoric acid 49%	Aqueous HF	New Schütz ECOBULK MX 1000 IBCs (preferred) · road tankers
Hydrofluoric acid 60%	Aqueous HF	New Schütz IBCs · HDPE jerrycans
Hydrofluoric acid 70%	Aqueous HF	New 220 L HDPE tighthead drums
HF / nitric acid blends	Ratios to order	New Schütz IBCs
HF blended with other mineral acids	Sulfuric, phosphoric or others, made to your specification	Packaging to order
Fluorspar	Acid grade; met grade powders and lumps	Bulk vessels · bags
Antimony	#2 antimony ingots; antimony trioxide (ATO), Sb_2O_3 99.8% and 99.5%	ATO: 25 kg bags · ingots to order

WHY ARENA FLUOR

- HF stocked in South Carolina, or delivered to any port
- New German-engineered Schütz IBCs (1,060 L), galvanized steel frame and pallet
- New 220 L HDPE tighthead drums, 4 per pallet
- Trusted by leading aerospace and defense manufacturers, major chemical distributors, toll blenders and high-purity quartz producers

INDUSTRIES & REACH

- Aerospace, military and defense
- Chemical manufacturing and distribution
- Steel and stainless steel
- Welding
- High-purity quartz purification
- Customers in the US, Europe, Japan, India and the Middle East

COMPLIANCE

- GHS-compliant Safety Data Sheets
- Product specification sheets
- DOT labeling: UN1790, Class 8 (6.1), PG II
- US regulatory compliance summary for each customer
- Registered on SAM.gov for federal contracting
